

A few comments from students who experienced the summer camp:

We wouldn't have thought that China was so wonderful. We really enjoyed this trip because people in China are really kind and sweet. We also liked the places we visited during these two weeks: the most interesting one was the Dazu Rock Carvings, where there were many beautiful sculptures. The lessons at the university were excellent and the teacher spoke a really good English. Our belief is that everyone must visit China, at least once in their life, because it's a beautiful country and a totally new culture.

Lorenzo, Federico

It has been amazing. We think we will never forget these two weeks: the interesting lessons in the morning, the entertaining city tours, the exciting cruise on the boat, the cute pandas, the different food and ... the wonderful trip to Beijing. We'd like to thank all the people who took part in this unique experience, from Confucius Institute, Chongqing University, and the guides, to the teachers and the wonderful people we met during this trip.

Pietro, Edoardo

The trip to China has been an amazing experience that, we think, everyone has to try at least once. All the places we visited were different from what we are used to and it was a really nice and surprising feeling to get in contact with such a different culture. Everybody was really nice and we had a really great time. The lessons at the university were interesting and useful. The trip to Chendu was relaxing, the pandas were absolutely adorable (not that we had any doubts) and we enjoyed it a lot. The visits to the centre and the old part of Chongqing were really interesting and we had a lot of fun. The three days in Beijing were an amazing and entertaining adventure that we hope we will be able to go deeper into in the future. To sum up, this experience has been fun, interesting, useful and it has been an opportunity to get in contact with a different world and with a different culture.

Matilde, Chiara

I would like to point out that while in Chongqing we all took the HSK2 examination, and we got an internationally recognized certification that will be very useful for our future.

Ilaria

An interesting aspect of this beautiful experience is that we also became friends with lots of students from other Italian schools. We had a lot of fun with them. We helped one another with the language during classes and we learnt some Chinese from some of them.
